

About Us

Cam Woodsum, Founder & CEO

Cam is obsessed with world impact, freedom, happiness and entrepreneurship: so he created a business and life that melds all four. Before running Two Minute Books and Nomad Impact Ventures, Cam ran the special projects group at DoorDash, a Silicon Valley company backed by \$970M from the early investors in Apple, Google, Facebook, and Amazon. While at DoorDash, he launched and managed two business lines that generated \$1M+ in yearly profit.
